

EVAN MEYER - DEAD OF NIGHT LYRICS

INTRO

In the dark of night, when no one is in site
The cement city awakes, and turns on its lights
Open wheel single seater with engines the roar
Take to the street circuit to see who will score

The pole position as a racer would dream
A title to behold, as one would be king
A true test of skill and might
All on the streets at the dead of night

VERSE 1

I got one dream
I wanna be the best there every could be
I wanna walk around like you know me
I want to impress the ones with the money

Because i'm broke
And i got nothing to fall back on
I got me a car but all my cash gone
Swear god if i crash then all i'll be withdrawn

CHORUS

I fight to save my life in the dead of night
Pole position i will be number one tonight
Winning is all i got for my future to be so bright
Put my gloves on ill be prepared to fight

To save my life
I do not want to die tonight
If i loose then we will see the light
See the light, in the dead of night

VERSE 2

Qualified in 5th but i'll be first
Come to the race and we will se who skirts
Throw my elbows out we will see if this hurts
Keep my self focused i must stay exert

Because if i don't
Then i'm am done
Throw the gloves up, no more having fun
But we will see who has won yeah see who won

CHORUS

I fight to save my life in the dead of night
Pole position i will be number one tonight
Winning is all i got for my future to be so bright
Put my gloves on ill be prepared to fight

To save my life
I do not want to die tonight
If i loose then we will see the light
See the light, in the dead of night

BRIDGE

I fight to save my life in the dead of night
Pole position i will be number one tonight
Winning is all i got for my future to be so bright
Put my gloves on ill be prepared to fight

To save my life
I do not want to die tonight
If i loose then we will see the light
See the light, in the dead of night
