

Light house light house guiding me to my house
Light out light out it's getting dark out
Light house light house guiding me to my house
Light out light out it's getting dark out

I need wins
More or less I need friends
I need supportive shit
I need a supportive bitch
Someone to get my back whenever I feel like shit
I can't quit
I'm too motivated for this
Too busy counting my chips

I keep it racking and racking like zoom
Up until I can't see the room
Straight to the moon
My depression is blue
Noody is listening so that's why I make this tune
Keeping it going so I do not loose
But nobody cares so I pop my own ballon

Light house light house guiding me to my house
Light out light out it's getting dark out
Light house light house guiding me to my house
Light out light out it's getting dark out

I'm in pain
Call me max payne
Froze in bullet time this ain't no game
Stuck in time I just feel ashamed
I feel so lame
I'm probably the one to blame
It's a shame
All I wanna do it get myself blazed

Yo have you ever seen a grown man cry
We'll just take a good look in my blue eyes
Don't worry I don't feel like I need to die

I do feel cold enough to say my own goodbye

Light house light house guiding me to my house

Light out light out it's getting dark out

Light house light house guiding me to my house

Light out light out it's getting dark out
